

NO.	R.D.I Code	Long Discription	Unit	Qty.
1	30-500200-005	Refill brackets Roth system (0.022) inch with canine hooks (1,2,3) Upper and Lower 50 % + (4 ,5) with hooks Upper and Lower 50 %	kit	4000
2	30-500200-010	Standard brackets Roth system (0.022) inch with cuspid and bicuspid hooks with tubes to first molars of mesh pad body with torque in base	kit	8500
3	30-500200-015	Standard brackets MBT system with cuspid and bicuspid hooks with tubes to first molars	kit	2000
4	30-500117-060	First molar band Roth system (0.022) inch prewelded with buccal double (0.045) inch HG. Rectangular tube (0.022 x 0.028) inch with hook and lingual cleat size (34-40) for lower right (36,36+,37,37+,38,38+) suggest 70% of the whole number	piece	20000
5	30-500117-061	First molar band Roth system (0.022) inch prewelded with buccal double (0.045) inch HG. Rectangular tube (0.022 x 0.028) inch with hook and lingual cleat size (34-40) for lower left (36,36+,37,37+,38,38+) suggest 70% of the whole number	piece	20000
6	30-500117-062	First molar band Roth system (0.022) inch prewelded with buccal double (0.045) inch HG. Rectangular tube (0.022 x 0.028) inch with hook and lingual cleat size (34-40) for upper right (36,36+,37,37+,38,38+) suggest 70% of the whole number	piece	20000
7	30-500117-063	First molar band Roth system (0.022) inch prewelded with buccal double (0.045) inch HG. Rectangular tube (0.022 x 0.028) inch with hook and lingual cleat size (34-40) for upper left (36,36+,37,37+,38,38+) suggest 70% of the whole number	Piece	20000
8	30-500123-041	Premolar band Roth system (0.022) inch prewelded with bracket (with hook and lingual attachment) for lower right size (11-30)	Piece	2000
9	30-500123-042	Premolar band Roth system (0.022) inch prewelded with bracket (with hook and lingual attachment) for upper left size (11-30)	Piece	2000
10	30-500123-043	Premolar band Roth system (0.022) inch prewelded with bracket (with hook and lingual attachment) for upper right size (11-30)	Piece	2000
11	30-500123-040	Premolar band Roth system (0.022) inch prewelded with bracket (with hook and lingual attachment) for lower left size (11-30)	Piece	2000
12	30-500200-025	start kit anchorage (TAD), with engine driver ED 19-L, ED 19-S, with driver tip ST-L, ST-S	box	10
13	30-500311-005	Arch Nickel Titanium wire ideal form Round for Upper arch (0.012) inch box of 10	Box	3000
14	30-500311-010	Arch Nickel Titanium wire ideal form Round for Upper arch (0.014) inch box of 10	Box	3000
15	30-500311-015	Arch Nickel Titanium wire ideal form Round for Upper arch (0.016) inch box of 10	Box	3000
16	30-500311-020	Arch Nickel Titanium wire ideal form round for Upper arch (0.018) inch box of 10	Box	3000
17	30-500312-010	Arch Nickel Titanium ideal form rectangular for Upper arch (0.016x0.022) inch box of 10	Box	3000
18	30-500312-015	Arch Nickel Titanium ideal form rectangular for Upper arch (0.019 x 0.025) inch box of 10	Box	4000
19	30-500313-005	Arch Nickel Titanium wire ideal form round for Lower arch (0.012) inch box of 10	Box	3000
20	30-500313-010	Arch Nickel Titanium wire ideal form round for Lower arch (0.014) inch box of 10	Box	3000
21	30-500313-015	Arch Nickel Titanium wire ideal form round for Lower arch (0.016) inch box of 10	Box	3000
22	30-500313-020	Arch Nickel Titanium wire ideal form round for Lower arch (0.018) inch box of 10	Box	3000
23	30-500314-010	Arch Nickel Titanium ideal form rectangular for Lower arch (0.016 x 0.022) inch box of 10	Box	3000
24	30-500314-015	Arch Nickel Titanium ideal form rectangular for Lower arch (0.019 x 0.025) inch box of 10	Box	4000
25	30-500321-010	Nickel titanium reverse curve of spee arch wires round for Upper arch (0.018) inch box of 10	Box	50
26	30-500322-015	Nickel titanium reverse curve of spee archwires rectangular for Upper arch (0.019 x0.025) inch box of 10	Box	50
27	30-500323-010	Nickel titanium reverse curve of spee archwires round for Lower arch (0.018) inch box of 10	Box	50
28	30-500324-015	Nickel titanium reverse curve of spee archwires rectangular for Lower arch (0.019 x 0.025) inch box of 10	Box	50
29	30-500341-010	Stainless steel performed arch wire ideal form round for Upper arch (0.018) inch box of 10	Box	2000

30	30-500342-010	Stainless steel performed arch wire ideal form rectangle for Upper arch (0.016 x0.022) inch box of 10	Box	2000
31	30-500342-015	Stainless steel performed arch wire ideal form rectangle for Upper arch (0.019 x0.025) inch box of 10	Box	4000
32	30-500343-010	Stainless steel performed arch wire ideal form round for Lower arch (0.018) inch box of 10	Box	2000
33	30-500344-010	Stainless steel performed arch wire ideal form rectangle for Lower arch (0.016 x0.022) inch	Box	2000
34	30-500344-015	Stainless steel performed arch wire ideal form rectangle for Lower arch (0.019 x0.025) inch box of 10	Box	4000
35	30-500351-010	Open Coil spring (0.012) inch	Spool	400
36	30-500351-015	Open Coil spring (0.014) inch	Spool	400
37	30-500352-005	Close Coil spring (0.009) inch	Spool	200
38	30-500352-015	Close Coil spring (0.011) inch	Spool	200
39	30-500352-020	Close Coil spring (0.009) inch with eyelet's medium force with different lengths box of 10	box	50
40	30-500370-005	preformed Kobayashi ligature wire made of wire (0.014) inch short pack of 100	Pack	300
41	30-500370-010	preformed Kobayashi ligature wire made of wire (0.014) inch long pack of 100	Pack	300
42	30-500370-015	preformed ligature wire made of wire (0.012) inch short pack of 100	Pack	300
43	30-500370-020	preformed ligature wire made of wire (0.012) inch long pack of 100	Pack	300
44	30-500410-005	Self-cured glass ionomer band cement with fluoride releasing	Kit	1000
45	30-500420-010	Abrasive metal strips double sided medium grit, 4mm wide Box of (12)	Box	500
46	30-500440-005	Soldering wire with flux Box of (12)	Box	1000
47	30-500460-005	Light cured orthodontic bonding system in syringe with acid etch and primer, kit from (1-4) syringe.	kit	500
48	30-500510-005	Elastic power chain continuous or closed with 2.8 mm size	spool	500
49	30-500510-010	Elastic power chain short with 3.5 size	spool	500
50	30-500510-015	Elastic power chain long with 4 mm size	spool	500
51	30-500520-005	Elastomeric ligatures in diameter (silver) box of 1000 pcs	Box	1400
52	30-500520-005	Elastomeric ligatures in diameter (assorted colors) box of 1000 pcs	Box	700
53	30-500530-005	Intra oral elastic (4.5 oz – 126 gm) medium size (3/8) inch pack of (100)	Pack	50
54	30-500530-010	Intra oral elastic (4.5 oz – 126 gm) medium size (3/16) inch pack of (100)	Pack	150
55	30-500530-015	Intra oral elastic (4.5 oz – 126 gm) medium size (1/ 8) inch pack of (100)	Pack	100
56	30-500530-016	Extra oral elastic with heavy size (6 oz) and medium size (4.5 oz) of different diameter (5/16,1/2 mm) in diameter pack of 1000,50%heavy (5/16,1/2 mm),50%medium (5/16,1/2 mm) in diameter.	Pack	10
57	30-500530-020	Intra oral elastic (4.5 oz – 126 gm) medium size (1/4) inch pack of (100)	Pack	150
58	30-500530-025	Intra oral elastic (4.5 oz – 126gm) medium size (5/16) inch pack of (100)	Pack	100
59	30-500600-005	Expansion screw one direction (1D) different size of body length-micro and super micro sectional screw (with key)	Piece	1000
60	30-500600-010	Expansion screw two direction (2 D) transversal different size of body length (with key)	piece	3000
61	30-500600-015	Expansion screw three direction (3D) anatomical	piece	600
62	30-500600-020	palatal rapid expander screw for maximum expansion different length (9,11,13 mm)	piece	1500

63	30-500720-005	Face mask (made of stainless steel and none toxic acrylic can be dimensionally adjustable to full fill Piece individual requirement with vertical adjustment (8oz – 224) gm strong ((3/8” – 9.5) mm inner diam) with elastic rubber medium size	Piece	200
64	30-500800-005	Lip retractor and cheek elastic c-shape medium and large silicon manufactured	Piece	3000
65	30-500800-010	No- mix bonding system, orthodontic chemical adhesive in syringe, kit of 3 syringe	Kit	100
66	30-500800-015	Crimpable hooks straight for wires (0.022 x 0.028) inch	Piece	500
67	30-500800-020	Radio opaque blue separator with 1 cm in diameter Box of (1000)	Box	500
68	30-500800-025	Golden chain for impacted canine	Piece	500
69	30-500800-030	Finishing tungsten carbide burs for ortho 12 fluted	piece	200
70	30-500800-035	Bondable lingual cleats flat	Piece	500
71	30-500800-040	Bondable lingual cleats curved	Piece	500
72	30-500800-045	Bondable lingual buttons flat	Piece	500
73	30-500800-050	Bondable lingual buttons curved	Piece	500
74	30-500800-060	Sheet for vacuum former machine hard (0.4) mm	Piece	10000
75	30-500800-065	Sheet for vacuum former machine hard (0.6) mm	Piece	2000
76	30-500800-060	Sheet for vacuum former machine Soft (0.8) mm	Piece	2000
77	30-500800-085	Refill for miniscrew length 8 mm of different heads	Piece	1000
78	30-520102-040	Etching gel 37% phosphoric acid	syringe	500
79	30-500800-000	micro-composite brushes (long) without handle	Box	2000
80	30-500800-190	instruments Alcohol free –rapid disinfectant spray for orthodontic	piece	500
81	40-500000-005	straight cutter (0.4) mm (0.016) inch soft mini.	Piece	150
82	40-500000-010	Micro distal Cutter up to 21*25 ss wire.	Piece	150
83	40-500000-015	Band remover with re-changeable silicon rubber	Piece	50
84	40-500000-020	Force module separator pliers with a spring to limit expansion	Piece	50
85	40-500000-025	Hard cutter 22*28 inch	Piece	150
86	40-500000-030	Ligature and arch tucker	Piece	150
87	40-500000-035	High heat bite sticks triangular serrated tip	Piece	100
88	40-500000-040	Mershon band	Piece	50
89	40-500000-045	Direct bonding bracket holder	Piece	100
90	40-500000-050	straight haemostatic forceps with serrated tips and locking handle (stainless steel)	Piece	300
91	40-500000-055	curved haemostatic forceps with serrated tips and locking handle (stainless steel)	Piece	300
92	40-500000-060	Mini gas torch	Piece	250
93	40-500000-090	Brackets remover	Piece	50
94	40-500000-095	Torquing plier	Piece	50
95	40-520403-010	light curing composite (blue for temporary dental disocclusion and bands cementation) kit of (1-3 syringe)	kit	100
