## RFQ for CommScope Ruckus Network Devices & Accessories

## 1. INTRODUCTION

GJU intends to extend the current CommScope Ruckus Network Devices, qualified bidders are invited to submit their quotations for this request which would include the following components:

- 1.1 WiFi Access Points including Licenses
- 1.2 Edge Switches including Licenses
- 1.3 SFPs
- 1.4 Patch Cords

## 2. GENERAL INSTRUCTIONS AND REQUIREMENTS

### 2.1 Bid Requirements

- The bidder should be a Partner/Reseller/Distributor for CommScope Ruckus in Jordan. Valid Partnership/Reseller/Distributor documents must be included in the proposal as proof of qualification.
- The bidder should ensure that all installation, configuration, and related tasks are carried out by CommScope Ruckus Certified Engineers/Specialists. Valid certification documents must be included in the proposal as proof of qualification.
- The bidder should perform the supply, installation, central configuration, tuning, and activation for WiFi Access Points.
- The bidder should perform Supply only for the rest of the devices and accessories.
- The bidder should not involve Sub-Bidders.
- GJU reserves the right not to award all items listed in the Bill of Quantities (BoQ).
- The WiFi Access Points (APs) and associated accessories are considered a single, indivisible package and shall not be awarded to more than one bidder.

### 2.2 Selected Bidder Responsibilities

- The selected bidder should register all delivered devices and software to German Jordanian University, not other accounts, a vendor certificate(s) and document(s) that include model numbers and serial numbers for the delivered devices and software should be handed over to GJU.
- The selected bidder is responsible for any damage to GJU facilities and assets during the storing, assembly, and installation period.
- The selected bidder shall provide documentation from the vendor certifying that all delivered equipment is owned under the profile of German Jordanian University (GJU). All devices, licenses, support, and warranties provided by the vendor should be accessible to GJU IT through vendor portals or any other vendor-standard access method.
- The selected bidder should submit a Professional, Soft Copy As-Built map for WiFi AP devices. Locations should be listed precisely and should include the Model, MAC address, Serial number, and all related cable paths.

### 2.3 Format of Proposals

- The bidder should submit all required documents, part numbers, etc. in the proposal.
- Mentioning the retail prices is mandatory.
